

# Radius

## Description

Adds rounded corners to a rectangular shape widget.

⚠ Only works on the web browser side.

See this online generator to get the desired result: <http://www.cssmatic.com/border-radius>.

## Properties

- *top left* : Sets the rounding of the top left corner of the rectangle in pixels or percentage.
- *top right* : Sets the rounding of the top right corner of the rectangle in pixels or percentage.
- *bottom right* : Sets the rounding of the bottom right corner of the rectangle in pixels or percentage.
- *bottom left* : Sets the rounding of the bottom left corner of the rectangle in pixels or percentage.
